Applicant encloses a Deposit Account charge authorization for the RCE fee.

Applicant has rewritten cancelled claim 21 to include the additional elements of the invention which distinguish it over the references cited by the Examiner. Applicant now recites the structure of the carpet tack accommodating portion in respect of the spacer which engages the vertical support when the apparatus is in proper position for the tack strip to be nailed. The inventive structure allows a tack 96 of the tack strip to be nailed to be engaged by the carpet tack accommodating portion 26, with the strip contained within the channel 34. As recited in the claim, the portion 26 is set at a predetermined distance from the exterior of the base portion, such that the apparatus may be used to position the tack strip and then subsequently accomplish the setting of the engaged nail of the tack strip. Careful review of Clifford and Copeland does not describe or illustrate the combined features now claimed, nor do any of the other teaching references such as Henning, Hilti or any of the other cited references suggest Applicant's combination of elements for a carpet laying tool.

Accordingly, Applicant believes that the Application is now in suitable form for allowance. Reconsideration by the Examiner under the RCE is respectfully requested and a Notice of Allowance solicited.

If the Examiner feels that a telephone conference with Applicant's attorney would advance the prosecution of the application, he is invited to call the undersigned at 901-537-1108.

Respectfully submitted,

H. Roy Berkenstock
